

**What came first: the chicken or the egg? The only thing that matters is the end result.**

*Evonik Porphyrio is a KU Leuven University spin-off coming from the Bioscience Engineering department. Founded in 2013, Porphyrio takes up a protagonist role in the digital revolution of the livestock production sector. Since 2018, Porphyrio is part of the Evonik Group. Technologies such as Big Data ICT & IoT, will play an important role in one of the biggest challenges we are facing in this world: feeding 9-10 billion people by 2050!*

For our office in Leuven (Belgium) we are currently searching for a (m/f)

## DATA SCIENTIST

### What can you expect?

Agriculture is the sector to profit from Internet of Things and Big Data! And IoT & Big Data are the foundation of the Evonik Porphyrio business. Our solutions handle & streamline data coming from livestock operations worldwide. We give INSIGHT in these data via a BI Dashboard developed using biostatistics. So, do you want to join a team in which you will make a difference? You will be part of the development of our analytics engine focusing on advanced insights and predictive modelling. Are you ready to crack your brain on the fantastic complexity of biological production processes? Not afraid of some data digging and out-of-the-box thinking? Then this must be a perfect fit!

### Who are we looking for?

- A person with a scientific degree in mathematics, (bio)statistics, physics, geography/geology, civil engineering or bioscience engineering. Experience may also come from a PhD with data analytical foundations.
- Passionate about data, data crunching and a pitbull in finding the best possible solution.
- Able to build models starting from complex biological production data, with a critical view on the requirements of both data and modeling techniques and with a clear focus on robust model development.
- Experience with development of the above in Python.
- Able to further develop the data analytics strategies for our SaaS solutions.
- A real team player.
- You are hands-on: you take initiative and are happy to bring new ideas into a developing company.
- We would like you to start ASAP.

### What are we offering?

A challenging and key position in a young, dynamic and growing company which is in the middle of Cloud/Big Data/AI revolution in the Agrisector, with ample possibilities to develop yourself with the company. We offer you a competitive salary, based on experience and results, the necessary technical tools for you to do your work and extra-legal advantages such as meal vouchers, health care, group insurance, eco vouchers.
