

**What came first: the chicken or the egg? The only thing that matters is the end result.**

*Evonik Porphyrio is a KU Leuven University spin-off coming from the Bioscience Engineering department. Founded in 2013, Porphyrio takes up a protagonist role in the digital revolution of the livestock production sector. Since 2018, Porphyrio is part of the Evonik Group. Technologies such as Big Data ICT & IoT, will play an important role in one of the biggest challenges we are facing in this world: feeding 9-10 billion people by 2050!*

For our office in Leuven (Belgium) we are currently searching for a (m/f)

## PRODUCT OWNER

### What can you expect?

As a product owner, you will play a central role in a fast-growing team. Your primary role is to represent the customer to the development team. As a PO you understand the market, the customers and the business. For new features, you will manage product development projects from start to finish. You are available to the development team to answer any questions team members have regarding the customer's view of how they're implementing a product feature. You will monitor progress of these projects and coordinate QA of these features. You will also organize the inflow of product feedback from customers via Sales & Product Experts. With this feedback, you help to define and prioritize stories, based on user value, time and team dependencies. You help building and maintaining the product roadmap.

### Who are we looking for?

- Professional knowledge of (international) livestock production in general, and poultry production in particular. Knowledge of the pig sector is a plus.
- Excellent communication skills with the ability to engage and influence.
- Strong analytical and problem-solving abilities.
- Excellent organizational and time management skills.
- A team player with a flexible attitude. You love working with cross-functional teams to deliver on a common goal.
- Fluent in English .
- Basic knowledge of and feeling with ICT and open to improve it.
- A minimum of 3 years professional experience in a project management role.

### What are we offering?

A challenging and key position in a young, dynamic and growing company which is in the middle of Cloud/ Big Data/AI revolution in the Agrisector, with ample possibilities to develop yourself with the company. We offer you a competitive salary, based on experience and results, the necessary technical tools for you to do your work and extra-legal advantages such as meal vouchers, health care, group insurance, eco vouchers.
